

# Data Interdependencies

How, What, and When

- How do you consume AIMS Data?
  - What AIMS datasets do you connect to directly via jocoPub, jocoland, etc.?
  - Are you using any data directly via our Server Services?
  - What would preclude AIMS from moving our nightly publishing window to a later time (after 3 AM)? – When are your processes running?
- How AIMS consumes your data.
  - Are you aware AIMS pulls datasets from your organization via regularly scheduled processes? Via adhoc process?
- Data needs and awareness (Quality of AIMS Data Services)
  - What AIMS datasets are the most critical for your day to day business processes?
    - Communication of Schema Changes
  - Are there important or useful AIMS datasets that you recently became aware of that were not communicated?
    - Did you know we have ...
  - Are there data needs at your organization not available through AIMS that you'd like to see?
