

April AIMS Coordinator's Meeting

Date: April 9, 2015

Location: Lenexa City Hall, 12350 W 87th St Pkwy

Stacey Priest

- Geocortex optimizer
 - Allows them to proactively monitor server performance
 - Feed ArcGIS Server log files for monitoring and reporting
 - Must enable verbose logging for it to function correctly
 - Allows them to see:
 - How services are being used
 - Which ones are getting the most requests
 - How services are performing
 - Pros:
 - Usable
 - Helps improve performance
 - Report on service up-time
- Story maps
 - Park & Rec finder
 - Council Member finder
 - Rain to Rec program
 - Burn map
 - Asset Management map journal
 - About Lenexa

Sarah Ballew

- Web app builder – developer edition
- Works with 2D or 3D
- Comes with custom themes
- Easily customizable

Tom Audley

- Lucity app
 - Offers field editing with feature service
 - No snapping on lines, but works great with points
 - IOS doesn't currently support disconnected editing (Android does)
 - Field crews are all using iPads
 - About 20 deployed in total
 - Images are being stored in network location

Trudy

- Firehouse to Accela Automation
 - FH is used for inspections while Accela is permitting
 - Annual fire inspections are tied to address points
 - Other inspections are tied to permit ID from Accela
 - Fire departments spend 80-100 hours inspecting each new structure from start to finish
 - About 70% of fire departments nationally use Firehouse

Butch

- Fire inspection interactive map
 - Allows them to view things spatially
 - They can quickly see:
 - Floors above and floors below grade
 - Buildings with sprinkler systems
 - Tenant names
 - Specific date range
 - Pros:
 - Drastically increase efficiency
 - Reduce driving time b/t inspections

Chris Stilwell

- I Like Lenexa app
 - Started by Parks & Rec to replace Playground Finder
 - Has 6 main components
 - Pools
 - Playgrounds
 - Festivals
 - Weather
 - Messages
 - Achievements
 - Self-reporting
 - Leader board
 - More social
