

AIMS Coordinators Meeting Minutes

October 10, 2013

Host: AIMS

Location: Admin Building

Presentations:

Kevin Skridulis – JOCO Agricultural land survey

Keith Shaw – Emmitsburg ReCap IEMC

Keith Shaw attended the Integrated Emergency Management Course. He provided an overview along with how GIS relates to emergency response. Doug Johnson provided some of OP's experience from their emergency exercise. Doug proposed having a larger group of GIS people available to help in an emergency situation and that a master contact list would be helpful.

Keith Shaw – US National Grid

Travis Wagner – Benefit Districts

Jason Hrabe – Server Services/Free Data

Dan Steen – Geolocation HTML5

Jerry Swingle - Announcements

- AIMS Migrated to SQL Server 2012. No major issues other than slight performance drop.
- Moving to ArcSDE 10.1. This version of SDE will improve performance and compatible with SQL 2012
- Imagery
 - Flying Oblique photography in Spring of 2014 (Pictometry)
 - JOCO plans to participate with the MARC regional imagery capture. MARC is using the Missouri State contract that has already vetted vendors. This will eliminate the need for a formal RFP process. The flight and capture is planned for 2014.
- The November Meeting (11/14) is at Johnson County Transit.
- Shannon mentioned spots were available for the October IMS training class.
