

# OP Emergency Operations Damage Assessment

Step 1 - Determine extent of damage area (QuickCapture)

Step 2 - Create maps and divide damage area into inspection zones

Step 3 - Identify structures and create address list

Step 4 - Create EnerGov request and inspection cases for each building with damage

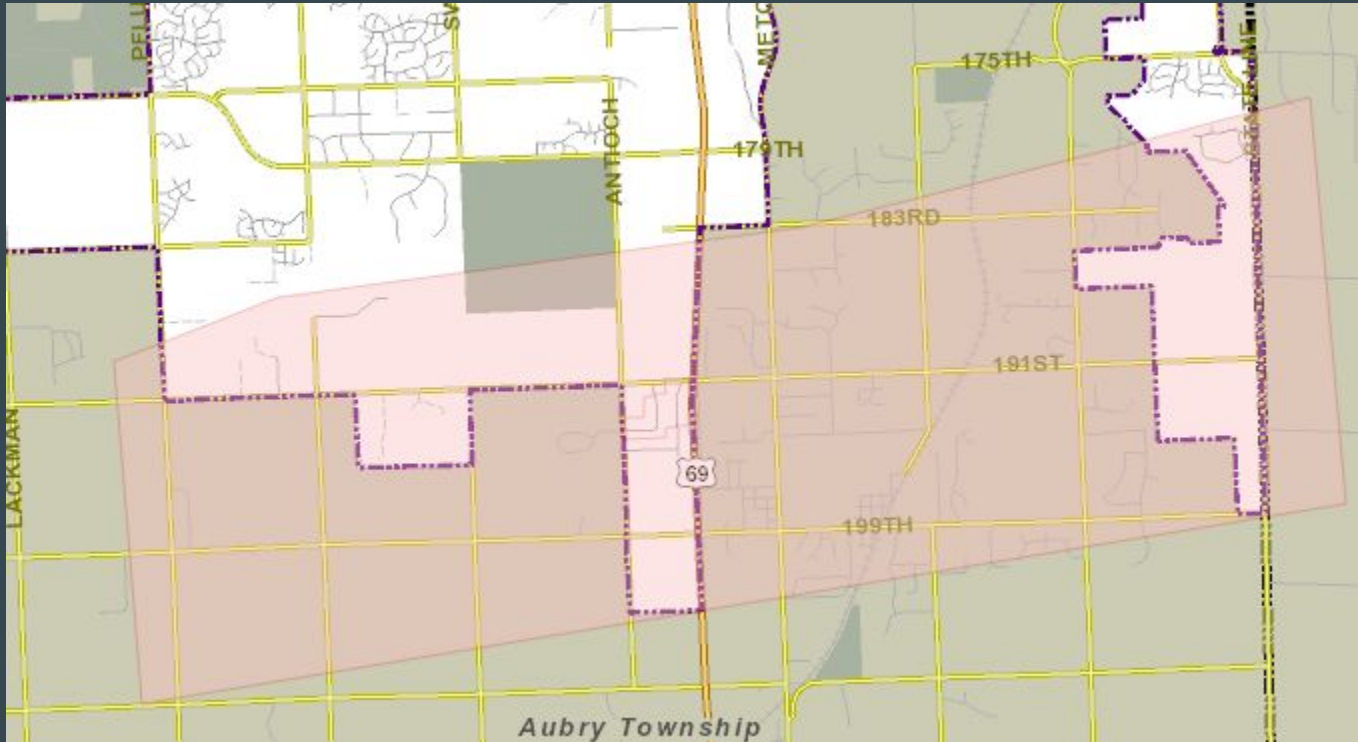

Step 5 - Inspect damaged structures (iG Enforce)

Step 6 - Create dynamic maps and statistics

Step 7 - Create final reports

- [Individual Structure Report](#)
- [Summary Report](#)

# Step 1 - Determine extent of damage area (News Feeds)

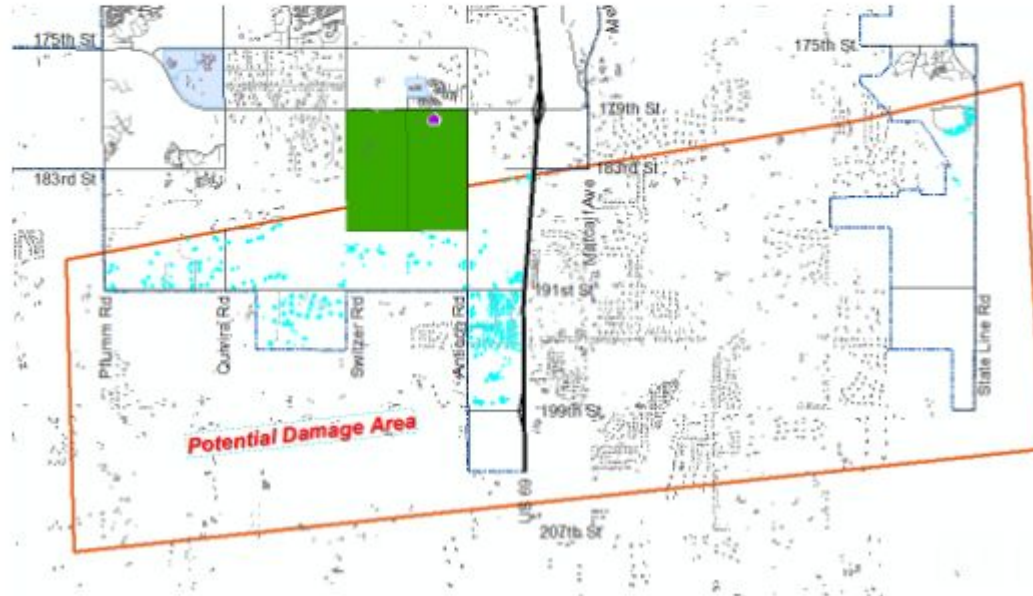

# Step 1 - Determine extent of damage area (News Feeds)

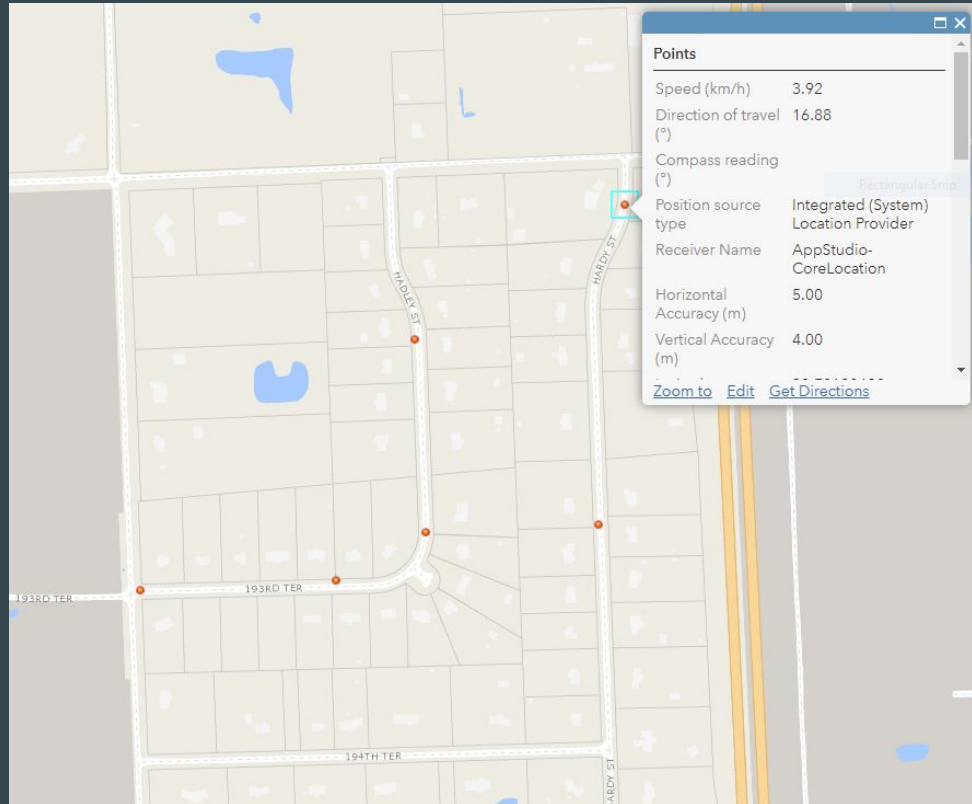

Initial estimates for the potential damage area in OP only:

500 population

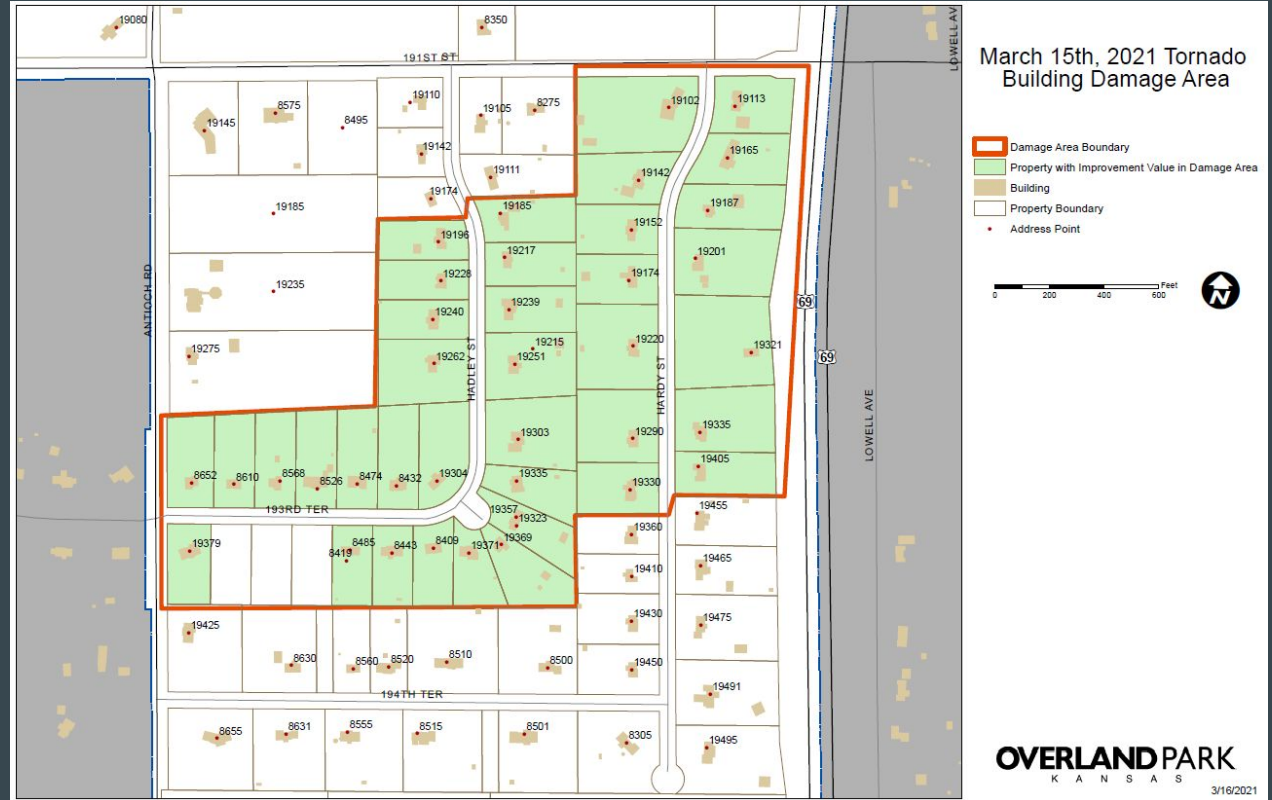

434 structures

# Step 1 - Determine extent of damage area (QuickCapture)

# Step 2 - Create maps and divide damage area into inspection zones

# Step 3 - Identify structures and create address list
