

AIMS Coordinator's Meeting Minutes

September, 2003

Olathe Municipal Building

Matt Wennstedt

- Opening Comments and Greeting

Ted Payne

- Discussed the relevance of defining a new position and being flexible with its implementation.
- Showcased WAMP (Wastewater Asset Management Program) that he developed for Olathe Public Works.
- Demonstrated the usefulness of WAMP for controlling and streamlining data capture and maintenance of wastewater data.

John Schroeter

- Discussed Olathe's direction towards stormwater management.
- Demonstrated some aspects of Route Smart used by Olathe stormwater management.

Linda Beets

- Demonstrated new ArcGIS extension (IcoMap) for entering legal description information.
 - Showed how the extension could read and highlight a digital legal description and use the highlighting to add COGO to a feature class
 - Showed how to do manual manipulation with the extension.
 - Showed how IcoMap Pen can use OCR to extract legal description information directly from plats.

Matt Steging

- Discussed Olathe's successful attempt to pass an addressing ordinance with the Olathe City Council.
 - The addressing ordinance will allow Olathe to conform to the county grid addressing in future address situations while providing a path to work with Olathe's older grid system
